

RAISE

The future is not a place you're going to. It is a place you're making...

ALTERNATIVE PROVISION

BE KIND, WORK HARD, AIM HIGH

ABOUT RAISE AP

BE KIND, WORK HARD, AIM HIGH

RAISE-AP support students who are 11-16 with bespoke alternative education and recognised qualifications, designed around each young person and their unique strengths, allowing them to thrive, become independent and succeed in pathways that they wish to follow when looking at their next steps in education or the wider workplace.

Our **RAISE** values are at the heart of everything we do, with the aim to reintegrate our students into school life, by building confidence, social skills, and emotional development, ensuring they are ready to succeed. We passionately believe in our values, which are centred around the unique needs and strengths of each young person.

The future is not a place you're going to. It is a place you're making...

RESILIENCE – empowering our young people to keep trying after challenges or setbacks

ATTITUDE – positive attitudes towards learning and wider life, shown through behaviour and effort

INTEREST – bespoke education to engage in learning for future pathways our young people want to journey on

SELF-CONFIDENCE – empowering our students to gain confidence to learn, succeed and overcome

EMPATHY – valuing and caring about each individual, showing kindness and tolerance to all in our community

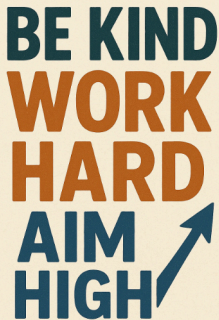

Our **RAISE-AP** moto is be kind, work hard, aim high.

BE KIND... being kind and respectful to ourselves, the environment and others

WORK HARD... having a good attitude to work hard every day

AIM HIGH... high expectations and challenge in all areas of life to be successful

BE KIND
WORK
HARD
AIM
HIGH

RAISE-AP cater for young people who have struggled in a mainstream setting and may have:

- Autism spectrum disorder
- Behavioural, emotional and social difficulties
- Educational phobias
- Excluded from other schools / provisions
- Learning disabilities
- Life traumas
- Severe or complex special educational needs

THERAPEUTIC EDUCATION

BE KIND, WORK HARD, AIM HIGH

RAISE-AP support students who are 11-16 with bespoke alternative education and recognised qualifications, designed around each young person and their unique strengths, allowing them to thrive, become independent and succeed in pathways that they wish to follow when looking at their next steps in education or the wider workplace.

Our **RAISE** values are at the heart of everything we do, with the aim to reintegrate our students into school life, by building confidence, social skills, and emotional development, ensuring they are ready to succeed. We passionately believe in our values, which are centred around the unique needs and strengths of each young person.

The future is not a place you're going to. It is a place you're making...

TRAUMA INFORMED

BE KIND, WORK HARD, AIM HIGH

All **RAISE-AP** staff have access to reflective conversations and debriefs alongside bespoke training which is offered by in-house specialists around current presenting needs alongside opportunities to discuss more complex presentations for individual students through consultation slots.

This allows our education staff to understand and manage more complex presentations resulting from experiences of trauma, mental ill health or neurodiversity.

The future is not a place you're going to. It is a place you're making...

RAISE AP is an Alternative Provision which provides students with a curriculum which is tailored to meet their needs, their future aspirations and to re-engage them in education so that they can reach their full potential. Each student receives a bespoke, individualised programme of study based around or **RAISE AP** values of re-engaging students, having positive attitudes, investing in their need, working on their self-belief and, through our bespoke curriculum, placing the highest of values on their education.

We believe that, by providing an individualised, personalised programmes of study which prioritises both academic and holistic development, the outcomes our young people achieve will have a lasting positive impact on their lives. We aim to prepare our students for their pathways into young adulthood by providing recognised qualifications in key core and foundational subjects at a level appropriate to the learner and through pastoral support to invoke holistic development. We aim to give all of young people opportunities to experience a variety of extra-curricular experiences alongside work placements to inspire future career paths.

We're proud that we can be adaptable to meet our students' needs and change the learning environment where required, bringing the curriculum to life and supporting social and emotional development alongside academic progress.

We are able to boast high staff ratios, which can, if necessary be as high as 1:1, to support the needs of our students. With the **RAISE AP** staff team being highly trained and fully committed to supporting students in achieving their potential, we are able to offer a comprehensive range of qualifications which include: English, Mathematics, Science, Art and Photography, Citizenship, PSHE and Personal Development Learning, ASDAN, Computing, Outdoor Education, and Physical Education and Sports Fitness.

These academic qualifications have a range of levels - from entry level 1 functional skills to GCSE and Level 2 awards. We also focus on employability qualifications, ASDAN and work experience opportunities, enabling our young people to boost their next steps into college, careers and independence. This ability to bespoke and individualise a wide range of qualifications are proven to engage a diverse range of learners, ensuring an appropriate balance between attainment, achievement, expectations for good citizenship and becoming prepared for young adulthood and next steps after 16.

We will consider any EHCP, risk assessment or consultation and are confident that we can tailor an educational package to meet the needs of any individual student. This process will involve meeting the young person, care givers and any associated professionals to ensure that we work collaboratively to optimise student outcomes.

Our alternative provision supports school and local authorities in Hampshire and the neighbouring counties, aimed at young people not thriving in mainstream education.

Our programmes support young people who may have poor peer relationships; poor self-image; difficulties expressing intense emotions; and those with low-level specific learning needs focussed around ADHD or autism. Our educational pathways provide our young people with skills for life, social skills, relevant qualifications, and confidence and support for their next steps into learning or working life.

The referral of a student to **RAISE AP** is normally facilitated by the Local Authority responsible for your child. Professionals, schools, parents and carers are all welcome to make informal enquiries to us, however, **RAISE-AP** works in partnership with the Local Authorities who will ultimately handle the referral.
